Williams Weekly

House Committee on Small Business Hearing

I led a hearing with testimony from SBA Administrator Loeffler examining how President Trump's budget proposal will support the SBA in returning to its core mission of serving Main Street and prioritizing American entrepreneurs. We must protect our nation's job creators who take risks, sign paychecks, and drive American innovation. Watch my opening statement [here](#).

Subcommittee Hearing

Small businesses need growth to survive. Private equity gives small business owners the opportunity to invest into their business and stay relevant in the market. Watch my line of questioning [here](#).

10 Small Business Bills Passed the House Floor

This week, [House Republicans codified another set of President Trump's executive orders](#) to [protect American small businesses](#). Ten House Committee on Small Business bills passed the House floor, including my legislation, H.R. 1642, to help countless graduates translate their skills into the workforce by connecting them with the small businesses that need them most. As Chairman, I will continue the fight to promote small business growth as we usher in the Golden Age of Main Street America.

Financial Services Full Committee Hearing

Currently, the rules around digital assets are confusing and inconsistent. Under existing law, developers, investors, and businesses don't know which agency is in charge or which rules apply. Some projects have left the U.S. entirely, and many consumers have been using risky platforms without basic protections. Watch my line of questioning [here](#).

Financial Services Subcommittee Hearing

Rural communities across the country rely on local lenders and community banks for access to credit, mortgages, and basic financial services. Watch my line of questioning during this week's hearing [here](#).

mortgages, and basic financial services. Watch my [line of questioning](#) during this week's hearing reviewing data privacy in today's financial system.

Honoring American Patriots

Throughout American history, patriots have stepped up to protect and defend the American people and uphold the values that make our country the greatest in the history of the world. We have created holidays for many groups, but fail to adequately celebrate the patriots who made our freedoms possible. I introduced a resolution to designate July as 'American Patriotism Month' to reflect on the history of our great country and honor the men and women who carried out the heroic acts that shaped the land we love and call home. Read more [here](#).

Unlocking Investment Research for Main Street Businesses

Access to capital remains a top issue for small businesses across America. Research reports are critical tools that help companies attract investors and improve transparency in the market, but many small and mid-sized businesses are excluded from research coverage during the public offering process. We must level the playing field to ensure all businesses can compete. I introduced a bill to ensure investors have access to independent analysis, making the market more transparent, efficient, and prosperous for Main Street. Read more [here](#).

In Case You Missed It!

I joined [Fox Business on Mornings With Maria](#) and [Newsmax on National Report](#) to discuss Republicans' work to deliver on the people's mandate and codify President Trump's America first agenda. As Chairman of the House Committee on Small Business, I am fighting to [cut taxes](#), slash regulations, and restore a thriving economy. I am proud to work alongside Senator Ernst and Administrator Loeffler to unleash American manufacturing and put the hardworking families, small business owners, and entrepreneurs of Main Street first.

In God we trust,

Roger Williams
